# Computer Programming for Musicians (Final Project)

Project diagram (sketch)

main idea: HTML design will represent the looks
of a guitar pedal
effects:

— delay (adjustable)

— harmonizer / on/off switch
for higher & lower voice

Audio input

harmonizer

Delay

(high) 5th above
Voice 1

(low) 5th below
Voice 2

Slider

on/off

on/off

total gain

output

Webpage design

Heaven's
ECHO ——— some cool font combo

angel choir
(harmonizer)

Delay

Voice One   Voice two   50

0   0   0   100

indicator lights

ON/OFF
